FACT:

NO TWO RUNNERS ARE ALIKE

Run Signature helps you pick the right shoes. We start by determining the deviation between the way your body moves while on the run versus off — this result determines the amount of support you may need. Then you choose your preferred experience: cushioning to keep things soft, spring-like energy to propel you forward, or featherlight speed so you can push your pace. We use what we learn to match you with your perfect running shoes.

A SHOE FOR EVERY RUN. A SHOE FOR ALL WHO RUN.

ROAD SHOES DEFINED BY BROOKS RUN SIGNATURE

CUSHION

Cushion shoes deliver super softness, so runners can get lost in the cloudlike comfort and enjoy their miles.

CUSHION MEETS NITRO

DNA LOFT V3

The Glycerin is known for underfoot softness that's over-the-top good. Now, our premium Cushion shoe is getting — well, even cushier. It's all thanks to an exciting new tech development.

Meet DNA LOFT v3, the latest iteration of our super soft DNA LOFT midsole cushion technology. It's nitrogen-infused through a process we've spent years perfecting. The result is a Glycerin that delivers on ultimate softness and responsiveness, while staying light and durable.

That's not all. Cushion-lovers can get the plush comfort they want in four distinct ways. Runners can start with their preferred fit — a more classic running shoe fit or our new foot-hugging StealthFit. Then they choose the level of support they need — the neutral Glycerin 20 or the Glycerin GTS 20 with GuideRails® Support. More options mean more runners can get exactly the experience they want.

GLYCERIN 20 NEW

Our softest cushioning for supreme comfort and distraction-free miles.

Supreme softness

Now featuring nitrogen-infused DNA LOFT v3, our softest cushioning optimized to be light weight, responsive, and durable with plush comfort.

Improved fit

Our plush and breathable engineered air mesh upper offers a secure fit, comfortably holding the foot in place.

Smooth and easy transitions

Redesigned midsole and outsole offer a widened platform for smoother, easier transitions.

What's New

- Updated midsole features nitrogen-infused DNA LOFT v3, our softest cushioning yet.
- New cushioning and redesigned outsole deliver smoother and more stable transitions.
- All-new engineered mesh upper is lightweight and breathable.

Additional Benefits

- 3D Fit Print provides extra structure.

SUPPORT

BEAST ’20

ARIEL ’20

Support and cushion working together in the name of maximum comfort.

Trusted stability

We've shifted our focus beyond the feet to the most injury-prone part of a runner's body: the knees. GuideRails® support keeps you moving comfortably by keeping excess movement in check.

Soft cushioning

Thanks to our patented BioMoGo DNA midsole, ultra-softness and durability aren't mutually exclusive. The Ultimate Sockliner enhances comfort.

Enhanced fit

Enjoy comfort front to back with a spacious yet secure fit thanks to an engineered-mesh upper and conformable embroidered saddle.

Additional Benefits

- A full-length Segmented Crash Pad accommodates any foot landing and delivers smooth heel-to-toe transitions.
- GuideRails® support technology significantly reduces weight compared to prior versions.
- The Ultimate Sockliner adds cushioning for a plush in-shoe feel.
- The embroidered saddle and eyestay offer a modern look.

CUSHION

CUSHION OR ENERGIZE

Our Cushion and Energize categories deliver very different experiences — by design. Here's a breakdown of some of the details that make each experience unique. Whichever you choose, you can be confident you're getting the premium run you expect from Brooks.

COMPONENTS OF CUSHION

Our Cushion category is made to soften every step. And the most plush of these shoes is the Glycerin 20, featuring DNA LOFT v3 — our supremely soft cushioning.

Offering our classic running shoe fit, with air-mesh upper, increased breathability, and just-right structure.

Our DNA LOFT v3 cushioning is infused with nitrogen to make the shoe ultra soft and lightweight without sacrificing durability.

Full-length DNA LOFT v3 cushioning in the midsole works with a slightly widened outsole platform to allow for softer landings and smoother heel-toe transitions.

WHERE TO FIND IT

Experience our original DNA LOFT in the super-smooth Ghost 14 and Adrenaline GTS 22 for the road — or the Divide 3 for the trail. Just as soft but lighter weight, DNA LOFT v2 is in the adaptive Cascadia 16. And the softest of the bunch, DNA LOFT v3, is in our Glycerin 20 line for road running— or the Caldera 6 for trail running.

ELEMENTS OF ENERGIZE

Bounce back with our Energize shoes, designed to return the energy runners put into each step. This season, don't miss the Levitate 5 — featuring DNA AMP® technology for a super-springy ride.

A soft interior liner helps secure the fit and increase comfort.

Available in two fit options: a classic running shoe fit, with circular knit material for breathability and flexibility, or our StealthFit, with Fit Knit materials that wrap the foot for compression and stretch.

The midsole is packed with springy DNA AMP® technology to deliver our highest energy return with every stride.

WHERE TO FIND IT

Runners can spring for their goals with the Levitate 5 line, made for efficient energy return. Our signature springy ride has the option for neutral support or added GuideRails® support — and the option for a classic running-shoe fit or a closer-to-foot fit.

Men's

Women's

ENERGIZE
NEUTRAL

LEVITATE STEALTHFIT 5

Max energy return with an improved sleek fit.

Super springy

Our DNA AMP midsole technology delivers high energy return that helps your foot spring off the ground with each step.

Improved adaptable fit

New StealthFit construction introduces an improved adaptable fit, with stretch and compression to move with the foot.

Quick transitions

The arrow-point pattern in the outsole lets your foot move quickly from heel to toe, enhancing the shoe's springy feel.

What's New

- Refined Fit Knit upper delivers more seamless structure and breathability.
- Integrated tongue streamlines the fit.

Additional Benefits

- StealthFit last helps create a closer-to-foot fit.
- DNA AMP provides 71% energy return.

HILL YEAH

No pavement? No problem. Our Trail Collection helps runners hit their stride when rocks, roots, mud, and more are in the picture. To make the collection easy to navigate, we now organize trail footwear according to the type of trail experience you're craving. Check out the options.

LIGHT TRAIL Familiar road-shoe fit designed for groomed trails, park paths, and road-to-trail transitions.

DIVIDE 3

Made for light trails and road-to-trail transitions, the Divide 3 fits like a road shoe with TrailTack traction and added protection.

MOUNTAIN TRAIL Extra-protective technical features designed for rugged terrain with high vertical gains.

CASCADIA 16

Just the ticket for technical trails, this adaptive, protective shoe performs over rough and changing terrain.

CHOOSE YOUR EXPERIENCE

ULTRA TRAIL Lightweight with premium cushioning for long distances over varying terrain.

CALDERA 6

Stress less and explore more in the latest and greatest Caldera. With our softest cushioning — DNA LOFT v3 — in an entirely reconfigured midsole, the Caldera 6 feels super soft underfoot. An internal foot saddle and raised sidewalls provide a secure fit. And the widened base and split heel outsole work together to stabilize landings and carry you smoothly over uneven terrain and steep inclines or declines.

Men's

Women's

CUSHION

CASCADIA 16

Adaptable. Protective. Ready for technical terrain.

Enhanced adaptability

New midsole and outsole construction lets the shoe mold easily to the ground, improving the stable ride.

Flexible protection

Updated Ballistic Rock Shield protects against pebbles and debris while also adapting more easily to uneven terrain.

Softer cushioning

Our new DNA LOFT v2 midsole makes the Cascadia 16 cushioning 5% softer and 20% lighter than the Cascadia 15.

What's New

- Cushioning is softer and lighter, thanks to DNA LOFT v2 technology.
- We added 2mm of foam to the midsole for added comfort.
- More release grooves in the midsole allow for enhanced adaptability on rough terrain.
- Ballistic Rock Shield now includes vertical grooves to provide side-to-side adaptability.

Additional Benefits

- TrailTack rubber outsole provides wet-dry traction.
- Gaiter tab on heel secures gaiter.
- Lace keeper stores laces out of the way.
- Drainage ports allow water to escape quickly.
- Gusset keeps out sand and small debris.

ENERGIZE

CALDERA 6

Our softest cushioning for ultra comfort on the trail.

Supreme softness

Now featuring nitrogen-infused DNA LOFT v3, our softest cushioning optimized to be light weight, responsive, and durable with plush comfort.

Stable ride

The foot sits securely within raised midsole foam walls, while the widened base and split heel outsole work to stabilize your landings and carry you smoothly over uneven terrain.

Comfortably secure fit

An internal midfoot saddle holds the foot securely without sacrificing breathability, thanks to a new, lightweight and quick-drying air mesh upper.

What's New

- Updated midsole features nitrogen-infused DNA LOFT v3, our softest cushioning yet
- Redesigned midsole and outsole feature raised side walls and a widened platform for a stable ride.
- All-new, quick-drying air mesh upper provides enhanced breathability.

Additional Benefits

- TrailTack rubber outsole offers excellent traction on both wet and dry surfaces..
- TPU toe cap enhances protection on the trail.
- 3D Fit Print over the upper provides structure and durability, without compromising breathability.
- Lace keeper stows laces out of the way.
- Front and back attachment points make it easy to secure gaiters.

TRAIL

DO YOUR FEET A FAVOR

Whether we're running around the block or running a race, our feet always support our success. And when you add in walking, standing, and impromptu dancing, it's clear our daily grind demands a lot. That's why our footwear line is full of shoes that work hard — so feet can take it easy.

Through extensive biomechanical testing and plenty of interviews with runners, walkers, movers, shakers, and workers on their feet all day, we crafted these shoes to serve real people. With an array of options — including specialized widths, slip resistant soles, added stability, extra room for orthotics, and PDAC qualification for Medicare — the Solutions category is designed to offer feet some much-needed care.

Check out the grid to see what's available.

TECH TALK Specialized, high-tech features that set our shoes apart.

midsole

DYNAMIC CUSHIONING

BioMoGo DNA
An adaptive midsole material that blends BioMoGo and Brooks DNA to create dynamic cushioning that accounts for a runner's unique stride, weight, and speed.

DNA AMP
Our most responsive midsole technology that offers best-in-class energy return by encasing a polyurethane-based foam inside a thermoplastic polyurethane (TPU) skin.

DNA FLASH
A nitrogen-infused midsole cushioning compound that provides ultralight softness with plenty of energy return to power your run.

DNA LOFT
A finely calibrated mix of Brooks DNA foam, air, and rubber, DNA LOFT cushioning is our softest, engineered to provide softness underfoot without losing responsiveness or durability.

DNA LOFT v. 2
Lighter than the original but just as soft, DNA LOFT V2 has a unique balance of rubber, air, and a less dense, lighter foam for a plush feel that won't bottom out or weigh you down.

DNA LOFT v. 3
Experience a whole new world of softness with nitrogen infused DNA LOFT v3, midsole cushioning with our most amplified soft cushion compound to-date – we've fine tuned the nitrogen infusion process in DNA LOFT v3 to deliver optimized premium softness, enhanced responsiveness, lighter weight all without sacrificing durability.

FLEXIBILITY & ALIGNMENT

Omega Flex Grooves
An Omega-shaped innovation that enhances the flexibility of the midsole for an effortless forefoot ride without compromising the integrity of the midsole cushioning.

Release Grooves
Strategically placed Release Grooves in the forefoot and heel work with the full shoe, helping adapt to any terrain.

Segmented Crash Pad
Shaped like a caterpillar, a system of fully-integrated shock absorbers that accommodate any foot landing to maximize efficiency, provide cushion, and create smooth heel-to-toe transitions. to maximize efficiency, provide cushion, and create smooth heel-to-toe transitions.

Rapid Roll
The curved sculpting of the heel and toe of the midsole – combined with a carbon fiber plate is constructed to propel you forward with effortless speed.

SUPPORT

Extended Progressive Diagonal Rollbar
An extended version of our Progressive Diagonal Rollbar, which is a tri-density post at the medial arch that is biomechanically engineered to allow for progressive support and create smoother transitions from the midstance phase to the propulsion phase.

GuideRails®
An innovative, holistic, on-demand support technology that guides the body – hips, knees, and joints – into its natural motion path of least resistance.

outsole

Ballistic Rock Shield
A toughened, thermoplastic EVA sheath between the outsole and midsole that protects the forefoot by spreading out point loads from sharp objects.

Dual Stability Arch Pods
A passive support system utilized in the Dyad to enhance inherent stability without the use of a post.

Green Rubber
Our rubber compound that's thinner than traditional outsoles while still delivering traction and durability. Green rubber is also made primarily out of silica instead of petroleum, making it a more sustainable choice.

IDEAL Pressure Zones
An outsole technology that evenly disperses impact away from the body for a comfortable and effortless ride.

Slip-Resistant Outsole (SATRA TM144:2011)
Slip resistance on both wet and dry surfaces.

TrailTack Rubber
A sticky rubber compound that provides outstanding uphill and downhill traction, even on wet surfaces.

upper

3D Fit Print
An advanced screen-printing process to apply strategic stretch and structure for a seamless, impeccable fit.

Engineered Mesh
Custom-designed and strategically woven or knit mesh that provides optimal structure and breathability.

Fit Knit
Our premium knit construction specifically designed to move and expand seamlessly with your foot for a sock-like fit and optimal performance.

GORE-TEX® Invisible Fit
An updated lightweight membrane is bonded directly to the upper for a lighter, more flexible fit, offering breathable, waterproof protection on the run.

OrthoLite® Sockliner
Contoured insert designed to fill any negative space under the foot.

Stretch Woven
A pliable upper construction that wraps the foot in a sock-like fit.

Ultimate Sockliner
A PU insert with an OrthoLite® memory foam middle layer and convoluted egg-crate surface that provides substantial cushioning, breathability, and conformability.

BROOKS

LOCALLY

Did you know runners are 4x more likely to do their research on brooksrunning.com and buy in a physical store than they are to finish their purchase online?

Locally allows Brooks to tell online shoppers when you have our products available in store. We have found that retailers who share their inventory with Locally.com benefit from the web traffic on brooksrunning.com.

Signing up for Locally can:

Introduce runners to your store
Locally.com provides additional exposure to runners new to town or who haven't been into your store yet. Enjoy a customizable notification schedule that lets you receive text and/or email alerts during business hours and also have the option to direct message with the shopper at any time during the ordering process. Retailers that share inventory with Brooks through Locally get five times more views than those that don't on our dealer locator.

Drive traffic and sales
Reserve Online / Pickup In Store, Buy Online / Pickup In Store, and Same Day Delivery are now available through Locally. Sales from these transactions on Locally have increased 4-6X throughout 2020 as customer shopping behavior has evolved. This expanded toolkit gives runners more opportunities than ever to shop your store. You can also accept orders for in-store pick up directly from brooksrunning.com, Facebook, your own site, and Locally.com.

Help us highlight your store
When our website inventory runs low, we direct runners to Locally to search retail inventory in their hometowns — at stores like yours! And, Brooks can layer Locally's store locator tool into marketing campaigns to drive attendance to store events.

New
Locally now offers same day delivery. To provide support for new shopping behaviors Locally now enables all participating retailers Same-Day-Delivery with no additional cost.Same day delivery is a great addition to in-store or curbside pickup. Available in Postmates market (US only for now), standard 3.5% transaction fee plus carrier delivery charges still apply.

Have any questions or just want to get started? Contact your Brooks rep, or head straight to www.locally.com/go/launch.
